

Windows 11 System Audit Report

Automated Security & Compliance Audit

1. Executive Summary

This report presents the results of an automated, read-only security and configuration audit of DESKTOP-H9H293O, executed on 31 August 2026 at 22:56:49. 86 checks were defined across 15 categories; 52 passed, 9 failed, 5 produced advisory warnings, 5 did not apply to this system, and 15 could not be verified (this run was not elevated; re-run as Administrator for full coverage).

4 CRITICAL findings require immediate attention.

2. System Information

Operating System	Microsoft Windows 11 Home
Version / Build	10.0.26200 (Build 26200)
Architecture	64-bit
Computer Name	DESKTOP-H9H293O
Domain / Workgroup	WORKGROUP
CPU	13th Gen Intel(R) Core(TM) i7-13700H
RAM (GB)	15.7
Firmware Type	UEFI

3. Overall Security / Compliance Score

65.0%	32.4%	76.7%
Compliance	Risk Score	Coverage

4. Category-wise Results

Category	Compliance	Risk Score	Coverage
Authentication & Access Control	100.0%	0.0%	40.0%
Backup & Recovery	100.0%	0.0%	66.7%
Browser & Internet Security	100.0%	0.0%	100.0%
Data & Storage Security	100.0%	0.0%	40.0%
Device & Peripheral Security	50.0%	0.0%	100.0%
Event & Log Auditing	100.0%	0.0%	25.0%
Firewall & Network Security	93.9%	0.0%	100.0%
Processes & Applications	100.0%	0.0%	100.0%
Remote Access	73.3%	26.7%	75.0%
Services	58.0%	40.0%	100.0%
System & Hardware	N/A	N/A	81.8%
System Configuration & Policies	16.7%	66.7%	100.0%
Users & Account Management	61.5%	38.5%	100.0%
Windows Security	11.4%	88.6%	60.0%

Category	Compliance	Risk Score	Coverage
Windows Update & Patch Management	53.3%	46.7%	100.0%

5. Failed Checks (9)

ID	Parameter	Severity	Status	Actual
SEC-001	Defender Real-Time Protection	CRITICAL	FAIL	False
SEC-002	Defender Antivirus Enabled	CRITICAL	FAIL	False
SVC-002	Defender Antivirus Service Running	CRITICAL	FAIL	False
USR-003	Accounts With No Password Required	CRITICAL	FAIL	DefaultAccount; Guest; Sadanand B C
SEC-005	Defender Tamper Protection	HIGH	FAIL	False
UPD-001	Windows Update Service Running	HIGH	FAIL	False
POL-001	PowerShell Execution Policy	MEDIUM	FAIL	LocalMachine
RDP-003	Remote Assistance Enabled	MEDIUM	FAIL	True
SEC-003	Defender Cloud-Delivered Protection	MEDIUM	FAIL	False

6. Warning Checks (5)

ID	Parameter	Severity	Status	Actual
DEV-006	Bluetooth Radio Disabled	MEDIUM	WARNING	True
NET-008	Wireless Network Interface Disabled	MEDIUM	WARNING	True
POL-002	PowerShell Script Block Logging Enabled	LOW	WARNING	False
POL-003	Device Installation Restriction Policy Configured	LOW	WARNING	False
SVC-004	Print Spooler Service Running	LOW	WARNING	True

7. Passed Checks (52)

ID	Parameter	Severity	Status	Actual
APP-001	Installed Applications Inventory	INFO	PASS	110 items
APP-002	Excessive Startup Entries	LOW	PASS	False
APP-003	Running Processes	INFO	PASS	330 items
APP-004	Processes Running From Unusual Paths	MEDIUM	PASS	(none)
AUTH-007	User Account Control (UAC) Enabled	CRITICAL	PASS	True
AUTH-008	UAC Consent Prompt Behavior for Administrators	HIGH	PASS	2
AUTH-009	Automatic Screen Lock Configured	HIGH	PASS	True
AUTH-010	Automatic Screen Lock Timeout	MEDIUM	PASS	15
BKP-002	Windows Backup Service State	INFO	PASS	Stopped
BKP-003	Recovery Partition Present	LOW	PASS	True
BRW-001	Installed Browsers Inventory	INFO	PASS	name: Microsoft Edge, executable: msedge.exe, path: C:\Program Files (x86)\MicrosoftEdge\Application\msedge.exe, version: 152.0.4191.53; name: Google Chrome, executable: chrome.exe, path: C:\Program Files\Google\Chrome\Application\chrome.exe, version: 152.0.7977.64
BRW-002	Edge SmartScreen Enabled	MEDIUM	PASS	True

ID	Parameter	Severity	Status	Actual
BRW-003	Browser Proxy Override Configured	LOW	PASS	False
DEV-001	USB Storage Installation Policy State	INFO	PASS	Manual
DEV-002	Connected USB Devices	INFO	PASS	8 items
DEV-003	Bluetooth Adapter Present	INFO	PASS	True
DEV-004	Webcam Access Setting	INFO	PASS	Allow
DEV-005	Microphone Access Setting	INFO	PASS	Allow
LOG-004	System Log Available	LOW	PASS	True
NET-001	Domain Firewall Profile Enabled	HIGH	PASS	True
NET-002	Private Firewall Profile Enabled	HIGH	PASS	True
NET-003	Public Firewall Profile Enabled	CRITICAL	PASS	True
NET-004	High-Risk Ports Listening	MEDIUM	PASS	(none)
NET-005	Network Connection Profiles	INFO	PASS	Name: Airtel_9886045764_5GHz, NetworkCategory: Public
NET-006	DNS Servers Configured	INFO	PASS	InterfaceAlias: Wi-Fi, ServerAddresses: ['192.168.1.1']
NET-007	Proxy Configured	LOW	PASS	False
RDP-001	Remote Desktop Enabled	HIGH	PASS	False
RDP-004	WinRM Service Running	MEDIUM	PASS	False
SEC-006	SmartScreen Enabled	MEDIUM	PASS	True
SEC-007	Registered Antivirus Products	INFO	PASS	McAfee; Quick Heal IS Essentials; Windows Defender
STG-004	Non-Default SMB Shares	MEDIUM	PASS	(none)
STG-005	Unexpected Write Access on System Directories	LOW	PASS	False
SVC-001	Firewall Service Running	CRITICAL	PASS	True
SVC-003	Remote Registry Service Disabled	MEDIUM	PASS	False
SVC-005	Automatically Starting Services	INFO	PASS	107 items
SYS-001	Operating System Version	INFO	PASS	Microsoft Windows 11 Home
SYS-002	Operating System Build	INFO	PASS	26200
SYS-003	System Architecture	INFO	PASS	64-bit
SYS-004	Computer Name	INFO	PASS	DESKTOP-H9H293O
SYS-005	CPU	INFO	PASS	13th Gen Intel(R) Core(TM) i7-13700H
SYS-006	Installed RAM	INFO	PASS	15.7
SYS-007	Storage Volumes	INFO	PASS	drive: D:, size_gb: 409.6, free_gb: 332.9; drive: C:, size_gb: 520.3, free_gb: 209.4
SYS-008	Firmware Type (UEFI/Legacy)	INFO	PASS	UEFI
SYS-011	System Uptime	INFO	PASS	254.4
UPD-002	Days Since Last Installed Update	MEDIUM	PASS	15
UPD-003	Automatic Updates Not Paused	MEDIUM	PASS	False
UPD-004	Last Installed Update Date	INFO	PASS	2026-08-16T00:00:00

ID	Parameter	Severity	Status	Actual
USR-001	Local User Accounts	INFO	PASS	name: Administrator, enabled: False, password_required: True, last_logon: None; name: DefaultAccount, enabled: False, password_required: False, last_logon: None; name: Guest, enabled: False, password_required: False, last_logon: None; name: Sadanand B C, enabled: True, password_required: False, last_logon: 2026-08-31T19:41:39.652000; name: WDAGUtilityAccount, enabled: False, password_required: True, last_logon: None
USR-002	Guest Account Disabled	HIGH	PASS	False
USR-004	Administrators Group Membership Count	MEDIUM	PASS	2
USR-005	Accounts Inactive > 90 Days	LOW	PASS	(none)
USR-006	Built-in Administrator Account Disabled	MEDIUM	PASS	False

8. Critical Findings (4)

ID	Parameter	Severity	Status	Actual
SEC-001	Defender Real-Time Protection	CRITICAL	FAIL	False
SEC-002	Defender Antivirus Enabled	CRITICAL	FAIL	False
SVC-002	Defender Antivirus Service Running	CRITICAL	FAIL	False
USR-003	Accounts With No Password Required	CRITICAL	FAIL	DefaultAccount; Guest; Sadanand B C

9. Recommended Remediation

[CRITICAL] SEC-001 (Defender Real-Time Protection)

Enable Microsoft Defender real-time protection.

[CRITICAL] SEC-002 (Defender Antivirus Enabled)

Enable Microsoft Defender Antivirus, or confirm an authorized third-party antivirus is active in its place.

[CRITICAL] SVC-002 (Defender Antivirus Service Running)

Start the Windows Defender Antivirus service (WinDefend).

[CRITICAL] USR-003 (Accounts With No Password Required)

Require a password for every local account; clear the PasswordNotRequired flag.

[HIGH] SEC-005 (Defender Tamper Protection)

Enable Tamper Protection in Windows Security settings.

[HIGH] UPD-001 (Windows Update Service Running)

Start and enable the Windows Update service (wuauserv).

[MEDIUM] DEV-006 (Bluetooth Radio Disabled)

Disable the Bluetooth radio (Settings > Bluetooth & devices) if it is not actively required.

[MEDIUM] NET-008 (Wireless Network Interface Disabled)

Disable the wireless network adapter (Settings > Network & internet > Wi-Fi, or Device Manager) if wired/managed connectivity is available and Wi-Fi is not required.

[MEDIUM] POL-001 (PowerShell Execution Policy)

Set PowerShell execution policy to RemoteSigned or AllSigned instead of Unrestricted/Bypass.

[MEDIUM] RDP-003 (Remote Assistance Enabled)

Disable Remote Assistance unless actively required for support.

[MEDIUM] SEC-003 (Defender Cloud-Delivered Protection)

Enable cloud-delivered protection (MAPS) in Defender settings.

[LOW] POL-002 (PowerShell Script Block Logging Enabled)

Enable PowerShell Script Block Logging for improved auditability.

[LOW] POL-003 (Device Installation Restriction Policy Configured)

Consider enabling device installation restriction policy to control removable/peripheral hardware.

[LOW] SVC-004 (Print Spooler Service Running)

Disable the Print Spooler service on systems that do not need printing.

10-12. Audit Metadata

Audit timestamp	2026-08-31T22:56:49
Host name	DESKTOP-H9H293O
Operating system	Microsoft Windows 11 Home (Build 26200)
Running as Administrator	No

This audit ran without administrator privileges. Checks that require elevation (BitLocker, local security policy, audit policy, Security event log, TPM, Secure Boot) are reported as UNABLE_TO_COLLECT below rather than assumed. Re-run as Administrator for full coverage.

13. Checks That Could Not Be Collected (15)

ID	Parameter	Severity	Status	Actual	Detail
AUTH-001	Minimum Password Length	HIGH	UNABLE_TO_COLLECT	-	Administrator privileges required to export local security policy (secedit)
AUTH-002	Password Complexity Required	HIGH	UNABLE_TO_COLLECT	-	Administrator privileges required to export local security policy (secedit)
AUTH-003	Maximum Password Age	MEDIUM	UNABLE_TO_COLLECT	-	Administrator privileges required to export local security policy (secedit)
AUTH-004	Password History Size	MEDIUM	UNABLE_TO_COLLECT	-	Administrator privileges required to export local security policy (secedit)
AUTH-005	Account Lockout Threshold	HIGH	UNABLE_TO_COLLECT	-	Administrator privileges required to export local security policy (secedit)
AUTH-006	Account Lockout Duration	MEDIUM	UNABLE_TO_COLLECT	-	Administrator privileges required to export local security policy (secedit)
BKP-001	System Restore Enabled	MEDIUM	UNABLE_TO_COLLECT	-	Could not determine System Restore state via Get-ComputerRestorePoint: Access denied
LOG-001	Security Log Size Adequate	LOW	UNABLE_TO_COLLECT	-	Could not retrieve information about the Security log. Error: Attempted to perform an unauthorized operation..
LOG-002	Failed Logon Events (24h)	MEDIUM	UNABLE_TO_COLLECT	-	Attempted to perform an unauthorized operation.
LOG-003	Logon Event Auditing Enabled	HIGH	UNABLE_TO_COLLECT	-	Administrator privileges required to read the local audit policy (auditpol)

ID	Parameter	Severity	Status	Actual	Detail
STG-001	BitLocker Enabled on OS Drive	CRITICAL	UNABLE_TO_CONFIGURE	-	Access denied
STG-002	Fixed Drives Without BitLocker	HIGH	UNABLE_TO_CONFIGURE	-	Access denied
STG-003	Removable Drives Without BitLocker	MEDIUM	UNABLE_TO_CONFIGURE	-	Access denied
SYS-009	Secure Boot Enabled	HIGH	UNABLE_TO_CONFIGURE	-	Unable to set proper privileges. Access was denied.
SYS-010	TPM Ready	MEDIUM	UNABLE_TO_CONFIGURE	-	Administrator privileges required to read TPM state

Generated by the Windows 11 System Auditing Framework. Read-only; no system configuration was modified while producing this report.
